

Wherever you are.
Whatever you need.
Whenever you need it.

Eurostaal Impex B.V.

Your Procurement Partner in Industrial Projects

Eurostaal Impex B.V. at a glance:

Eurostaal is a Dutch company registered in The Netherlands.

Eurostaal has been the leading procurement service company for the energy industry worldwide. Our expertise on oilfield, refining, petrochemical, power generation, cement and mining industries has solidified our status as the center of choice to support and service your purchasing demands by an extensive knowledge which is supported by a database compiled for more than 25 years in the business.

Our skilled engineers and procurement specialists enable us to provide professional, tailor made, cost effective, on time delivery quality services to our clients according to their project requirements.

Our long term relationship and cooperation with reputable international companies has given our corporation the recognition to facilitate our clients with the highest industry standards, requirements and competitive prices.

The scope of services we provide includes but is not limited to:

- **Static Equipment:**
Reactor, Column, Pressure vessel, Storage Tank, Furnace, Fired Heater, Dryer
Heat Exchanger, Air Cooler, Boiler, Deaerator, Incinerator, Silo, Evaporator.
- **Parts and Components:**
Plate, Dished Head, Forging, Tray & Internal, Packing, Fired/Furnace tube,
Cast & Centrifugal cast items.
- **Piping Material:**
Pipe, Flange, Fitting, Valve, Gasket, Steam Traps, Filter and Strainer.
- **Rotating Equipment:**
Compressor, Pump, Steam turbine, Gas turbine, Extruder, Blower, Expander, Gear Unit.
- **Packaged unit/plant:**
Nitrogen generation, Air production unit, Molecular sieve/unit, Refrigeration/unit,
Chemical injection unit, Lube oil unit, Catalyst dosing units, Waste water treatment
- **Instrumentation & Control Systems:**
FCS, DCS, ESD, Control Valve, Field Instrument, Analyzer, Instrument Tube & Fitting, Cable.
- **Safety & Fire Fighting System;**
Safety valves, Deluge valves, Rupture disk, Foam Equipment, Sprinkler, Hydrant, Hose Cabinet.
- **Electrical, Security & Telecommunication System:**
Transformer, Switchgear, Electro Motor, Cable, Explosion proof fixture, Paging &, Radio, Telephone,
CCTV, Alarm System.
- **Chemical, Catalyst & Lubricant:**
Fixed bed, Fluidized bed, Consumable Catalysts & Chemicals for Refineries and Petrochemical
Production Plants. Industrial/Food grade Lube Oil, Transformer Oil.
- **Miscellaneous:**
Flare System/Burner, Refractory, Fire Brick, Crane, Elevator, Ejector, Conveyor belt,
Mixer/Agitator, Sieving machine, Silencer.

Our Principles:

Eurostaal represents a selected number of renowned international manufacturers specialized in providing various engineering products and services, for the Oil & Gas, Petrochemical Industries and Utilities sector.

Our vision:

Is to achieve the highest standard of professional procurement services to our clients worldwide through integrity, trust and ethical practices.

Our Services:

- ✚ *Sourcing*
- ✚ *Purchasing*
- ✚ *Expediting*
- ✚ *Inspection*
- ✚ *Quality Assurance*
- ✚ *Technical Clarification*
- ✚ *Logistics Management*
- ✚ *Contract Management*
- ✚ *Feasibility Study*
- ✚ *Financing*
- ✚ *Warehousing*
- ✚ *Documentation*

Static Equipment

Our experience for your success

Our in-depth experience, together with fully integrated data base and connections with reputable manufactures, enable our team of experts to satisfy customers demands in terms of production rang, delivery and budget for any types of static equipment.

Static equipment being critical and the strength of your plant, we make sure to finalize clarification of technical requirements prior to order placement and during the manufacturing cycle; we monitor and ensure that the ordered items are in accordance with your project demands.

"We are committed to our client's needs by offering the best services anywhere in the world and fulfilling their requirements. Our experience and international affiliation with other companies and subsidiaries has expanded our activities worldwide."

We have delivered the following types of equipment for our clients from manufacturers using the state of the art technologies in cladde, duplex, low alloy, Inconel and Monel material:

- | | |
|-------------------------------|---------------------------------|
| ▶ Reactor | ▶ Air Cooler |
| ▶ Process Column | ▶ Reformer Furnace |
| ▶ Pressure Vessel | ▶ Fired Heater |
| ▶ Spherical (Storage) Tank | ▶ Boiler Package |
| ▶ Static and Fluidized Dryer | ▶ Heat Recovery Steam Generator |
| ▶ Shell & Tube Heat Exchanger | ▶ Deaerator |
| ▶ Plate Type Heat Exchanger | ▶ Incinerator |
| ▶ Double Pipe Heat Exchanger | ▶ Evaporator |
| ▶ Silo | ▶ Condenser |
| ▶ Thermal Oxidizer | ▶ Scrubber |
| ▶ Chiller | ▶ Separator |

A reserve supply of spare parts can be ordered from Eurostaal to provide sufficient parts and tools to handle most normal replacements and emergency repairs for operational life of the aforementioned equipment. These kits include replacement gaskets & O-rings, rupture disks, drive belts, seals, instrumentation and accessories.

We monitor the complete cycle of your static equipment from drawing to production all the way to delivery and erection at site.

Parts & Components for Mechanical Equipment

Our motivation is quality rather than quantity

The understating of our customer's projects and a rooted relationship with high quality mills and stockyards worldwide has made us a reliable long term partner for manufacturing and engineering companies. Your project is our business and part of your purchasing team we deliver you procurement solutions.

We understand that routine maintenance and schedule overhauls, as necessary as they are, can be problematic for the plant's functionality. We therefore have the capacity to meet your "on time" delivery and technical requirements with respect to parts and components and mechanical equipment in the oil, gas, petrochemical and power generation plants.

Our company has served the industry for over two decades and has delivered thousands of tons of parts and components and equipment for various projects worldwide.

"The ability to innovate has been a key component in our success in satisfying each customer to date with respect to their project budget, delivery time and technical requirements."

We have delivered the following types of parts and components for our clients in carbon steel, stainless steel, clad, duplex, low alloy, Inconel and Monel material in various executions according to international standards:

- | | |
|---|----------------------------|
| ▶ Plate | ▶ Demister Pad |
| ▶ Perforated plate | ▶ Special Casing |
| ▶ Fabricated Head & Toriconical Section | ▶ Nut & Bolt |
| ▶ Pipe & Tube | ▶ Gasket |
| ▶ Fitting | ▶ Notch Filter |
| ▶ Flange | ▶ Grid/Platform |
| ▶ Forgings (according to drawings) | ▶ Wire Mesh |
| ▶ Girth Flange | ▶ (Pressure) Flexible Hose |
| ▶ Tray & Internal | ▶ Nozzle |

We can arrange for additional services such as custom made cutting, bending, surface treatment and pre-fabrications according to your requirements. Additional testing, certification and color coding are standard requisite we follow. As a company policy, we submit status reports to our clients to make sure they are kept updated with respect to their order and timely delivery.

Piping Material

Your procurement partner in industrial projects

The executive management at Eurostaal collaboratively has many years of experience and provides expert leadership for a team of highly qualified and skilled professional, handpicked for their industry knowledge and expertise.

We have a unique knowledge of piping material products. We only procure directly from certified and reputed manufacturers. We ensure that our clients use only optimum quality material. Our reputation stands for providing competitive prices, technical services and on time deliveries for every project for over 25 years that makes Eurostaal a world leader supplier.

"By examine the quality of ordered products with stringent parameter, we guarantee customer satisfaction with respect to budget, delivery time and origin of the materials ordered by us."

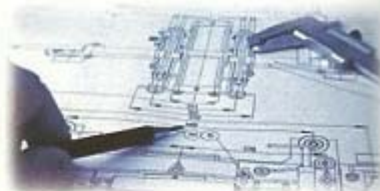

We have delivered the following types of piping material for various industries in any type of general steel and exotic material in different forms of executions. All our supplied products meet or exceed international standards per your specification requirements and included full documentation:

- | | |
|--------------|-------------------------------|
| ▶ Pipe | ▶ Sight Glass |
| ▶ Fitting | ▶ Flame Arrestor |
| ▶ Flange | ▶ Pig Launcher & Receiver |
| ▶ Valve | ▶ Insulating Kit |
| ▶ Gasket | ▶ Metal Jacketing |
| ▶ Nut & Bolt | ▶ GRP/FRP Piping Material |
| ▶ Filter | ▶ Expansion Joint (flexible) |
| ▶ Strainer | ▶ Shock Absorber |
| ▶ Steam Trap | ▶ Instrument Tubing & Fitting |
| ▶ Clamp | ▶ Actuator |
| ▶ Connector | ▶ Holder/Column Tube |

We have delivered and can supply high alloy casting tubes and fittings and special items according to drawings with respect to Gas Crackers, Steam Reformers and Fired Heaters. With an emphasis on continual improvement in both product quality and support service, Eurostaal rises above the competition.

That is why we are a trusted source by plant managers and project managers around the globe. We get the job done where others do not have the capability, inventory or knowledge.

Process Packaged Equipment

Consider us an extension of your business

It is the policy of Eurostaal to meet or exceed our customer's requirements by supplying cost effective quality products and services in a consistent and timely manner. Eurostaal is committed to constant improvement of our products. Our packages are totally customized to fit our client's prerequisites and to ensure the maximum efficiency in dosing the chemical required by the process for the specific application to better satisfy the needs of the customers.

Eurostaal is your single source for the complete engineered packages and systems for the oil, gas, both upstream and downstream, in the field of offshore platforms and onshore plants, petrochemical, chemical and power plants. Our quality products are services meet a broad range of applications you depend on.

"We will meet a project's stated goals, whether it is for the supply of a single equipment package built to client specification or entire systems. Whatever your project requirement you can trust Eurostaal to get the job done."

All delivered package come with spare parts, manual, documentation and drawings. We provide commissioning, start up to routine maintenance, even in the most remote locations. We have procured and delivered the following types of equipment in different pressure application with exotic material suitable for hazardous areas for our clients:

- | | |
|---|------------------------------------|
| ▶ Chemical/Catalyst Injection Package | ▶ Air Separation Unit/Plant |
| ▶ Corrosion Inhibitor Injection Package | ▶ Air Production Unit/Plant |
| ▶ Chemical/Catalyst Dosing Package | ▶ Seal Oil Unit |
| ▶ Molecular Sieve Package | ▶ Lube Oil Unit |
| ▶ Methanol Injection Package | ▶ Dosing Unit |
| ▶ Nitrogen Generation Package | ▶ Hydrogen Purification Unit/Plant |
| ▶ Sulphur Solidification Package | ▶ Gas Dehydration Unit/Plant |
| ▶ Delulsifier Injection Package | ▶ Flare Gas Recovery Unit/system |
| ▶ Antifoam/Anti Scale Injection Package | ▶ Waste Water Treatment Unit/Plant |
| ▶ Refrigeration Package | ▶ Gas/Air Dryer Unit |
| ▶ Odorization Package | ▶ Wellhead Control Panel |

You can depend on Eurostaal for spare parts, revamp and upgrading of your packaged equipment. Our long standing associations with only the best manufacturers in the field enables us to deliver you the best products and services from drawing to onsite installation and operation.

Rotating Equipment

Creating exceptional procurement strategies

Eurostaal offers extensive range of managed solutions and integrated services for rotating equipment applications in the oil, gas, petrochemical upstream, midstream and downstream. Our portfolio includes gas compression, power generation, gas processing and pipeline transmission.

We focus on delivering improved availability, reliability and performance of all rotating equipment installed on your assets, both onshore and offshore. These include turbine, steam turbine, pump, compressor, generator and associated ancillaries.

"We specialize in all aspects of rotating equipment services, installations, commissioning, routine maintenance and supply. With a dedicated team of experienced staff you can have the confidence to know our services are only a phone call away."

You can rely on our global network of dedicated manufacturers and highly skilled personnel to assist you in every step of the way to minimize downtime and disruption of your installation. We are committed to bringing you innovative; world class solutions that help you maximize the quality and profitability of your plant. All apparatus are customs built and tailor made. Below is a sample of what we have and can deliver to your industry:

- | | |
|--------------------------------|----------------------|
| ▶ Centrifugal Compressor | ▶ Reciprocating Pump |
| ▶ Reciprocating Compressor | ▶ Metering Pump |
| ▶ Axial Flow Compressor | ▶ Vacuum Pump |
| ▶ Integrally Geared Compressor | ▶ Fire water Pump |
| ▶ Air Compressor | ▶ Diaphragm Pump |
| ▶ Steam Turbine | ▶ Mud Pump |
| ▶ Gas Turbine | ▶ Slurry Pump |
| ▶ Low Flow High Head Pump | ▶ Dry Seal Pump |
| ▶ (API) Centrifugal Pump | ▶ Reciprocating Pump |
| ▶ Centrifugal Compressor | ▶ Gear Unit |

Considering long lead delivery intervals for rotating equipment, Eurostaal can provide spare parts and refurbished packages rebuilt to the same standards as received from the equipment manufacturer or quality OEM parts. We can also incorporate upgrades and modifications as desired to meet your operating needs. You can rely on Eurostaal as your integrated engineering & procurement partner for the requirements related to Rotating equipment.

Instrumentation & Control System

Connecting ideas, accelerating your business

We have been recognized as a distributing company for quality leader instrumentation and we are passionate about continuing this tradition. Our many years of combined experience with process control instruments allow us to carefully match components to your specific application in the oil, gas, petrochemical, power generation and cement industry.

"Our company continually strives to exceed customer expectations by providing wide range of sourcing solutions, timely deliveries and competitive pricing from distinguished brands."

In addition to our wide range of instrumentation supply, we also offer complete turnkey industrial process control packages and in consultation with our vendor partners, we offer full warranty support. Below please review a list of field instruments, process control systems and automation we can deliver to your industry:

Field Instrumentation:

- ▶ Electronic/Pneumatic Transmitter
(Pressure/Temperature/Flow/Level)(DP)
- ▶ Switch:
(Pressure/Temperature/Flow/Level)
- ▶ Gauge:
(Pressure/Temperature/Flow/Level)
- ▶ Sensor:
(Pressure/Temperature/Flow/Level)
- ▶ Meters:
Flow Meter (Ultrasonic, Vortex, Magnetic)
Rota Meter , Density Meter, Level Meter
- ▶ Sight Glass/Gauge Glass
- ▶ Venturi Tube
- ▶ Orifice Plates/Rupture Disc
- ▶ Bimetal Thermometer
- ▶ Thermocouple
- ▶ Junction Box
- ▶ Instrument Cable, Field bus & Optical

Automation Valve:

- ▶ Control Valve (Globe/Ball)
- ▶ On/Off Valve (Actuator/Motorized)
- ▶ Safety Relief Valve (Globe/Ball)
- ▶ Instrument valve, manifold
- ▶ Actuator/Positioner (Pneumatic)

Process Control and Automation:

- ▶ FCS , DCS, ESD System
- ▶ PLC, BMS, SCADA, HMI System
- ▶ PCL Wellhead Control System
- ▶ Fieldbus Solution
- ▶ Recorder
- ▶ Indicator
- ▶ Converter
- ▶ Detector

Analysis Instruments:

- ▶ Chromatograph
- ▶ Analyzer (Oxygen, H₂O, PH, etc.)
- ▶ Monitoring Systems (Vibration, etc)

We bring true value to your instrumentation and company needs with the best in class service, pricing, quality, product availability and spare parts.

Telecommunication Equipment Electrical & Security

Building tomorrow with our procurement solutions

As a supplier of electrical & communication systems, Eurostaal provides procurement solutions to ensure reliable and safe power products to the oil, gas, petrochemical and power generation industry, backed by efficient information management systems.

Our electrical department is managed by an experienced team from the electrical industry with extensive experience in manufacturing, utility consulting and service companies thus understanding your electrical demands. As a solution provider we bring together the expertise of different disciplines and third party suppliers to provide the optimum solution for your specific needs supported by efficient information management systems.

"Our mission is to provide high quality power system reliability products and services to our customers utilizing practical methodology for both the technical and safety aspects of your plant."

Eurostaal delivers customized solutions which promote consistency, reliability and provides continuously high process availability, even under the harshest conditions. Below please find a list of products we deliver with respect to electrical, telecommunications and security of your process:

Electrical Equipment:

- ▶ Transformer (LV,MV,HV)
- ▶ UPS
- ▶ Frequency Drive
- ▶ Switchgear & Panel (LV,MV,HV)
- ▶ Cable & Wire
- ▶ Neutral Grounding Resistor
- ▶ Electric Heat tracing
- ▶ Aircraft Warning light
- ▶ Bus duct & Trunking
- ▶ Electric Motor (LV/MV/HV)

Telecommunication & Security:

- ▶ Telephone System
- ▶ Paging System
- ▶ Radio System
- ▶ PABX Fire Telephone System
- ▶ LAN System
- ▶ CCTV System
- ▶ Siren/Alarm
- ▶ Annunciator
- ▶ Antenna & Wave Guide
- ▶ Multiplex

Drawing on profound knowledge of your processes and challenges, we help you ensure safety, reliable and continuous supply of electrical equipment while keeping your operating costs minimum.

Safety & Firefighting Systems

Solutions you can count on, Partners you can trust

Our aim is to provide optimum protection and safety to your plant. We do this by our emphasis on meeting the strict requirements of industry standards and customer specifications, which enables us to consistently deliver unsurpassed quality.

Eurostaal offers highly technological and modern fire detection and firefighting systems for very different process plants in the oil, gas, petrochemical, chemical and power generation industry.

"Eurostaal customizes all aspects of our approach to deliver a protection system suited to your needs. Having Eurostaal handle all aspects of your industrial system means your project goes on schedule, on budget and performs as expected."

We offer a great variety of material and services ranging from mobile equipment to complex fixed systems, fire suppression agents, intelligent smoke and heat detectors, from engineering and design to on site erection, from production to customer assistance to maintenance, after sales, repair and upgrading.

We deliver the following prevention, detection and containment equipment comprising some of the best known and most trusted brands in the fire industry:

- | | |
|---|-----------------------------------|
| ▶ Foam Skid/System | ▶ Sprinkler & Spray Nozzle System |
| ▶ Foam Concentrate | ▶ Water Mist System |
| ▶ Fire/Smoke & Pressure Relief Damper | ▶ Gaseous Suppression System |
| ▶ Fire/Smoke Alarm | ▶ Dry Chemical System |
| ▶ Extinguishing System | ▶ Fire Fighting Vehicle |
| ▶ Deluge Valve System & Accessories | ▶ Fire hydrant System |
| ▶ Storage Tank protection System (Rim Seal) | ▶ Hose Reel & Cabinet |
| ▶ Escape, Evacuation & Rescue Equipment | ▶ Safety Eyewash & Shower |

With extensive experience in firefighting and our agreements and relationship with qualified suppliers, we make sure you choose the right equipment according to your project budget, quality requirement and delivery time, whatever the application may be. We serve by exceeding commitments, providing new technology solutions, leveraging diverse brands, driving operational excellence and committing to the highest standards of business practice to deliver greater value to the customers than our competition. Your safety is our concern and our mission is to be our customer's first choice.

Chemical & Catalysts

Whatever your process, we have the right solution

Eurostaal is a leading distributor of chemicals and related innovative products and services for the oil, gas, petrochemical, power generation, steel, mining, waste and water industry.

Our specialized marketing and business professionals are armed with the ability to understand your industry requirements. We are experts at sourcing unique products and solutions. Our dedicated team ensure we represent our suppliers with operational and customer service excellence. We combine a market focused approach with strong supplier relationship and best in class customer service.

"We are a growing successful company with the resources, leadership, influence and internal capability to meet the demands of the energy business."

We safely deliver chemistry (products, expertise and relationships) for our customers in a wide variety of industries that help our customers improve the quality of life:

Dedicated Catalysts for:

- ▶ Catalytic Production Plant
- ▶ Hydrocracker
- ▶ Hydrotreater
- ▶ CO/CO₂ Converter
- ▶ Hydrogen Purifier
- ▶ Steam Reforming
- ▶ VC/EDC Production
- ▶ Polymer Production
- ▶ Activated Carbon
- ▶ Molecular Sieve
- ▶ Silica gel

Dedicated Chemicals/Solvents for:

- ▶ Demineralized Water
- ▶ Cooling Water
- ▶ Waste Water Treatment
- ▶ Seawater Desalination
- ▶ Oil & Petrol by-product
- ▶ Plastic & Rubber

General Used Chemicals:

- ▶ Adhesive & Sealant
- ▶ Emulsifier, Demulsifier
- ▶ Scale Inhibitor
- ▶ Corrosion Inhibitor

Eurostaal approach to the chemical industry has been to provide customers with a single point of contact for their entire chemical needs and have progressed into a company that provides customers with a variety of comprehensive chemical programs. Knowing our key markets is the element that makes us unique. We have a technical commercial team that understands end use markets applications and can help deliver solutions to the market needs. We look forward to earning your trust and demonstrating the value we can offer.

Supplementary & Miscellaneous Trading reinvented

Experience, dedication, commitment, integrity and performance are the building blocks of our company and the reason for our success. These are the requirements that our clientele demand and the philosophy on which we will continue to build our reputation. Our spectrum of supply is extremely large, from an O-ring to a complete drilling rig or process plant ready for reinstallation. Our expertise is in the international market and our ability to provide timely response to customer inquiries and prompt delivery of orders.

"Were the original manufacturer's spares are no longer available we have the knowledge to do our utmost to supply suitable replacements. We offer competitive pricing and take pride in sourcing hard to find items worldwide to meet the needs of our customers."

At Eurostaal we know manufacturing equipment. We have provided the products, value engineering and support to get your equipment back up and running. Whether you need more output, have safety concerns, models are outdated or parts are difficult to come across, we will find a way. With long standing client relations across the globe, we can engineer a solution that fits your needs.

Besides complete plants, process lines and quality used equipment; we have secured and delivered the following types of miscellaneous items for our clients:

- | | |
|---------------------------------|-----------------------------------|
| ▶ Flare System & Burner | ▶ HVAC System |
| ▶ Refractories & Fire Brick | ▶ Mixer & Agitator |
| ▶ Welding System | ▶ Degasifier |
| ▶ Conveyor system | ▶ Desuperheater |
| ▶ Packaging system | ▶ Sieving Machine |
| ▶ Paint System | ▶ Silencer |
| ▶ Tank Trailer (Ammonia, LPG) | ▶ Ejector |
| ▶ Crane & Lifting Equipment | ▶ Governor |
| ▶ Drilling Rig & Accessories | ▶ Coating & Wrapping |
| ▶ Explosion Proof Elevator | ▶ Used Plants & Process Equipment |

With a data base of over 8000 suppliers of spares and equipment built up over years of successful business relations, we surely can comply with your necessities. Our mission is to provide the products and support you need to ensure your production runs smooth. Wherever you are. Whatever you need. Whenever you need it.
